Image & Brand Asset Master Prompt

App, website, admin panel aur marketing ke liye poora analysis, ek master prompt, aur 123 assets ki list — sahi file name, folder, size aur ready-to-paste prompt ke saath.

123	4	33.0 MB → <4 MB	14
assets listed	locked art styles	app image weight target	issues found in audit

KhatuPay — Credit is Happiness | Codebase audit date: 5 Oct 2026 | Scope: khatupay_app (Flutter), admin_panel (React: website + admin), marketing

Is PDF ko kaise use karna hai

Seedha kaam shuru karne ke liye bas ye 6 steps. Baaki sab pages reference ke liye hain.

1. **Logo pehle vector karwao** (section 1, BR-01 se BR-04). Ye AI se nahi, ek baar trace se hoga. Iske bina icon, favicon, standee kuch final nahi hoga.
2. **Image tool me naya chat kholo** aur sabse pehle **MASTER PROMPT** (aage isi naam ka section) pura paste karo. Saath me apna logo aur ek reference image attach karo: `khatupay_app/assets/loans/generated/loan_apply_illustration.png` (ye current best style hai).
3. Jis style ki image chahiye uska **STYLE block** (A / B / C / D) ek baar paste karo.
4. Phir catalogue se ek-ek asset ka request bhejo: `STYLE` , `CANVAS` , `SUBJECT` . Subject column ko jaisa hai waisa copy karo.
5. Image aane par: background remove (agar transparent nahi aaya) → table me likhe **Final size** par resize → compress → **exact file name** se table me likhe folder me save.
6. Ek style ka poora set **ek hi chat** me banao. Naya chat = style thoda badal jata hai. Pehli achhi image ko "isi style me" bol kar reference banate raho.

Kaunsa tool kis kaam ke liye

- **Style A, C, D (3D / photo):** ChatGPT image generation, Gemini image, ya Midjourney. Transparent background ke liye ChatGPT sabse seedha hai.
- **Style B (flat vector / SVG):** Recraft (seedha SVG deta hai) ya Figma/Illustrator me draw. Normal AI tool PNG deta hai; usko vectorizer se SVG karna padega.
- **Logo, icons, print layouts, screenshots:** Figma / Illustrator / Canva. AI nahi.
- **Compress:** Squoosh ya TinyPNG. WebP quality 80.

Table ke columns ka matlab

- **NEW** = abhi exist nahi karta. **REPLACE** = same naam se dobara banao. **KEEP** = design theek hai, sirf resize + compress (prompt diya hai agar dobara banana ho).
- **Generate** = AI tool me ye aspect ratio maango (tools sirf 1:1, 3:2, 2:3 dete hain).
- **Final** = save karne se pehle is size/format par laao.
- **Style** = A/B/C/D; *Trace / Compose / Layout / Mockup / Official* ka matlab AI se nahi banana.

> **Sabse zaroori rule:** AI se kabhi text, logo ya QR mat likhwao. Image bina text ke banwao, phir logo aur headline khud lagao. Isi se sab professional aur ek jaisa dikhega.

Analysis — codebase me abhi kya hai

Maine app (`khatupay_app/assets` , 43 images), website + admin (`admin_panel/src` , ~100 pages), logo files aur theme code check kiya. Ye 14 cheezein mili jinki wajah se abhi sab ek jaisa professional nahi lagta.

Problem	Kya mila	Fix
1. Teen alag art style mix hain	Services = neon glossy 3D, loans = soft matte 3D, illustrations = flat vector, banners = photo. Ek screen par alag-alag company ka maal lagta hai.	Sirf 4 defined styles (A/B/C/D), har folder ka style fix.
2. Logo aur UI ka colour alag	Logo navy #002060 + mint #00C8A0 hai; app/admin teal #0F766E / #00A884 + saffron. App me deepTeal #075E54 hai, admin me #0F766E. Website theme-color #0066FF (blue).	Navy sirf logo ke andar. Baaki sab teal system. deepTeal dono jagah #0F766E, theme-color #0F766E.
3. App icon padha nahi jata	playstore-icon.png me pura horizontal logo + tagline 512px me thusa hai. Launcher me 48px par sirf dhabba dikhega. Adaptive icon bhi nahi hai.	Sirf wallet-K mark wala icon + adaptive foreground/background (BR-05 to BR-09).
4. Logo sirf chhota raster PNG hai	690x362 px. Banner, standee, flex par phat jayega. Koi SVG, koi white version nahi.	Ek baar vector trace (BR-01 to BR-04).
5. App images bahut bhaari: 33.0 MB	43 files, zyadatar 1254x1254 aur ~1 MB each, jabki screen par 48 se 200 dp me dikhte hain. APK size aur scroll dono par asar.	Icons 512px, illustrations 800px, compress. Target poora folder 4 MB se kam.
6. 3 asset folders pubspec me registered nahi	assets/auth/, assets/operators/, assets/loans/generated/ pubspec.yaml me nahi hain (Flutter sub-folder khud nahi leta). Ye images release build me load nahi hongi.	pubspec me teeno folder add karo.
7. Ek galat image path	verify_mobile_page.dart line 133: assets/auth_secure_access.png. Sahi path assets/auth/auth_secure_access.png hai.	Path theek karo.
8. Home banner me purani services	home-services-banner.png me water, gas, wifi icons hain. Ab sirf 5 services hain.	WB-06 naya hero, sirf 5 tiles.
9. Banner size inconsistent	loan_banner 1200x390, baaki 1200x450. Carousel height jump karti hai.	Sab 1200x450.
10. Operator logos AI-redrawn	9 operator logos ~800 KB each aur official artwork nahi lagte. Trademark risk + galat shape.	Official files, 256px tile (section 8).
11. Website SEO images hotlinked	favicon aur og:image i.ibb.co par hain; admin_panel/public folder nahi hai. Link toota to tab icon aur WhatsApp preview dono gayab.	Local favicon set + 1200x630 og-image (WB-01 to WB-05).
12. Website ke 20 public pages lagbhag bina visual	Sirf Home, Features, DynamicPage me image hai. Loans, Payments, QR, About, Security, Contact sab sirf text + icons.	Har main page ka hero (WB-08 to WB-17).
13. Admin panel me koi illustration nahi	Login plain, empty tables blank, 404 plain.	AD-01 to AD-08.
14. Marketing kit zero	Play Store feature graphic, screenshots, social templates, QR standee print file kuch nahi.	Section 11.

Jo achha hai aur rakhna hai

- Loan journey ke 7 illustrations (soft matte 3D, teal + gold) — yahi poore set ka reference style hai.
- App banners ka photo style (dark left side + phone + Indian lifestyle) — sahi direction, bas set poora karna hai.
- Admin aur website ke UI icons (lucide-react) aur app ke Material icons — consistent hain. **UI icons generate mat karo**; sirf service tiles aur illustrations.

- Colour tokens code me already defined hain (`app_theme.dart` , `index.css`) — images ko bas inhi se match karna hai.

Brand system — images ke liye lock

Colour palette

Primary teal
#00A884

Logo navy
#002060
Sirf logo ke andar

Logo mint
#00C8A0
Sirf logo ka K

Success
#16A34A
Check badges

Danger
#DC2626
Chhote badges

Line
#D3DEDB
Placeholder lines

Ratio: ek image me lagbhag 60% white/soft mint, 30% teal family, 10% saffron. Navy sirf logo file ke andar aata hai, illustrations me nahi.

Brand gradient: `linear-gradient(135deg, #08201E 0%, #0F766E 55%, #00A884 100%)` — code me `--kp-hero-gradient` yahi hai.

4 styles — kaun kahan

Style	Kahan use hoga	Kahan nahi
A — Soft 3D object	App service tiles, auth, loan steps, business, profile, website page heroes	Admin tables, status pages
B — Flat vector (SVG)	Empty states, payment status, 404, admin, how-it-works steps	Marketing hero, store graphics
C — Lifestyle photo	App home banners, About/Careers, posters, merchant marketing	Icons, empty states, admin
D — Brand key visual	Play Store graphic, social posts, OG image, admin login, push images, email header	App ke andar chhote tiles

Typography (jo text aap khud lagaoge)

Website/admin font Inter hai, app Roboto. Marketing aur banners par **Inter**: headline 800 weight, sub-line 500. Hindi ke liye **Noto Sans Devanagari** 700. Ek image par maximum 2 lines + logo. Dark background par white text, light par ink #08201E.

Naming aur export rules

- File name: sirf lowercase, `snake_case` app me (Flutter), `kebab-case` web me (existing convention yahi hai). Koi space, koi "final2", koi "removebg-preview".
- App me **existing file ka naam aur extension same** rakho (.png) — code change zero. Naye web assets **.webp** ya **.svg**.
- Transparent PNG ke kinare check karo: safed ya kaali halo line nahi honi chahiye (abhi service icons me kaali fringe hai).
- Weight budget: icon <60 KB, illustration <120 KB, app banner <180 KB, web hero <250 KB, SVG <25 KB.
- Master (bada, uncompressed) file alag `assets/brand/_source/` me rakho; app/web me sirf export.

MASTER PROMPT

Naye chat me sabse pehle ye pura paste karo. Saath me logo aur reference image attach karo. Ye ek baar hi dena hai.

```
You are the dedicated brand illustrator for KhatuPay, an Indian fintech app (tagline: "Credit is Happiness"). KhatuPay offers personal loans with a fully digital journey (KYC, bank verification, eSign), UPI / QR payments for small merchants, and exactly five bill services: mobile recharge, DTH recharge, credit card bill, electricity bill and FASTag.

For every image in this conversation follow this brand system strictly:

COLOURS (use only these; no purple, pink, neon or rainbow gradients)
- Primary teal #00A884, deep teal #0F766E, mint #14B8A6
- Dark ink #08201E for the darkest tones (never pure black)
- Accent saffron-gold #F59E0B, used sparingly: coins, highlights, one accent per image
- Neutrals: white #FFFFFF, off-white #F7FAF9, soft mint #E8F8F4, line grey #D3DEDB
- Status only: success green #16A34A, soft red #DC2626 (small badges only)
- Brand gradient when asked: 135 degrees, #08201E to #0F766E to #00A884

LOOK AND FEEL
- Calm, trustworthy, premium, simple. A bank you can trust, but friendly.
- Rounded shapes, generous empty space, one clear subject per image.
- Soft studio light from the top-left, soft short shadows. No harsh glow, no lens flare.
- Currency is always the Indian rupee. Never show dollar signs or dollar bills.
- People, when shown: Indian, age 22 to 45, natural skin tones, everyday modern Indian clothing, genuine relaxed expressions, real small-town and city settings.

HARD RULES
- No text, letters, numbers, words, captions or watermarks anywhere in the image. Screens and documents show only abstract lines, bars and shapes.
- No logos or brand marks of any company, bank, card network, telecom operator or government body. Do not draw the KhatuPay logo either; I will add it myself.
- QR codes must be a generic abstract pattern.
- No real ID card layouts, no national emblems, no religious symbols or deities.
- Keep the subject fully inside the frame with at least 10 percent padding on every side.

I will send each request in this format:
STYLE: (A, B, C or D, defined below)
CANVAS: (aspect ratio and background)
SUBJECT: (what to draw)
Reply with the image only. Keep the exact same style, palette, camera angle and lighting for every image with the same STYLE so the whole set looks like one family.
```

Negative prompt (Midjourney `--no` / jis tool me negative field ho)

```
text, letters, numbers, words, watermark, signature, logo, brand name, dollar sign, dollar bills, purple, pink, neon glow, rainbow gradient, lens flare, dark moody background, cluttered scene, extra fingers, distorted hands, cartoon mascot, anime, clip-art, low resolution, jpeg artifacts, cropped subject, real QR code, national emblem, religious symbol
```

Style blocks

Jis style ka set bana rahe ho, uska block master prompt ke baad ek baar paste karo.

STYLE A — Soft 3D object (app icons & spot illustrations)

Use: services, auth, loans, business, profile, website page heroes

```
STYLE A: soft matte 3D render, smooth clay-like rounded forms, slightly glossy only on screens and coins. Three-quarter front view, camera tilted about 15 degrees from above, objects resting on or floating just above the ground. Teal and mint as the main body colour, white for screens and paper, saffron-gold only for coins and one accent. Soft top-left studio light, one soft contact shadow. Simple shapes readable at 48 pixels. Fully transparent background (or pure white #FFFFFF if transparency is not possible). No neon rim light, no chrome, no dark background, no floor reflections.
```

STYLE B — Flat vector (empty states, status, admin, SVG)

Use: illustrations/, website sections, admin empty states

```
STYLE B: clean flat vector illustration, geometric rounded shapes, flat fills with at most one subtle two-stop gradient per shape, no outlines, no texture, no 3D, no shading beyond one soft offset shadow shape. Maximum six colours from the palette. One or two soft background circles in soft mint #E8F8F4 or soft saffron #FFF7E8. Centred composition, lots of empty space. Must look like it was drawn in Figma and can be saved as a small SVG.
```

STYLE C — Lifestyle photo (app banners, posters)

Use: banners/, about/careers hero, posters, some social posts

```
STYLE C: photorealistic lifestyle photograph, 50mm lens look, shallow depth of field, natural warm daylight, authentic Indian setting. Clothing, walls or props carry subtle teal accents. Any phone screen shows a clean white and teal interface made of abstract cards and bars. The left 45 percent of the frame fades into a dark ink-teal gradient (#08201E) and stays empty for headline text. No stock-photo stiffness, no exaggerated smiles, no visible brand names on clothes, shops or devices.
```

STYLE D — Brand key visual (marketing, login, push, OG)

Use: Play Store feature graphic, social, admin login, push big-picture

```
STYLE D: 3D objects in the same soft matte look as STYLE A, floating with depth on the brand gradient background (135 degrees, #08201E to #0F766E to #00A884), with a few soft translucent glass circles and thin orbit lines. Subtle depth of field on far objects. Keep the stated empty area completely clean for text. When I say "D-light", use a white to soft mint #E8F8F4 background instead of the dark gradient.
```

Har asset ka request aise bhejo (example: SV-01)

```
STYLE: A
CANVAS: square 1:1, transparent background
SUBJECT: A smartphone standing upright with four rising signal bars on its screen and a small saffron-gold coin with a lightning bolt beside it.
```

Agar result style se hat jaye: "Same subject, but match the style, palette and lighting of the first image in this chat exactly." Agar text aa jaye: "Remove all text and numbers; show abstract lines instead."

Asset catalogue

123 entries, 11 groups. Subject column English me hai kyunki image tools English prompt par sabse sahi result dete hain; use jaisa hai waisa copy karo.

1. Brand core — logo, app icon, splash

`assets/brand/ (naya master folder, repo root)`

> Ye AI se generate NAHI karne hain. Logo ko AI dobara draw karega to har baar alag banega. Existing logo (690x362 PNG) ko ek baar vector me trace karwao (Illustrator Image Trace / Figma / vectorizer tool) aur usi se sab export karo.

ID	File name	Generate → Final	Style	Subject / instruction
BR-01	`khatupay_logo_full.svg` NEW	**Vector trace** SVG, viewBox 690x362	**Trace**	Existing logo ka exact vector trace: navy wallet + mint K + green notes + "Khatu Pay" wordmark + tagline "Credit is Happiness". Colors lock: navy #002060, mint #00C8A0, note green #00A860. Transparent background. Koi redesign nahi.
BR-02	`khatupay_logo_full_white.svg` NEW	**From BR-01** SVG	**Trace**	Dark background ke liye: wordmark + tagline white #FFFFFF, wallet white outline/fill, K mint #00C8A0 hi rahega. Admin sidebar, footer, dark banners me use hoga.
BR-03	`khatupay_mark.svg` NEW	**From BR-01** SVG, 512x512	**Trace**	Sirf wallet-K icon (bina text). Square canvas, 10% padding. Favicon, app icon, QR center, avatar sab isi se banenge.
BR-04	`khatupay_mark_mono.svg` NEW	**From BR-03** SVG, 512x512	**Trace**	Single-colour silhouette (white aur ink #08201E dono). Watermark, notification icon, stamp ke liye.
BR-05	`app_icon_1024.png` REPLACE	**From BR-03** 1024x1024 PNG, no alpha	**Compose**	Wallet-K mark center me, canvas ka 60% size. Background soft gradient #FFFFFF to #E8F8F4. Tagline/wordmark NAHI (abhi wala icon pura logo + tagline hai jo chhote size me padha nahi jata). Ye khatupay_app/assets/playstore-icon.png ko replace karega (512x512 copy bhi).
BR-06	`app_icon_foreground.png` NEW	**From BR-03** 1024x1024 PNG transparent	**Compose**	Android adaptive icon foreground. Mark sirf center ke 66% safe zone (676px circle) ke andar. Baaki transparent.
BR-07	`app_icon_background.png` NEW	**Solid** 1024x1024 PNG	**Compose**	Adaptive icon background: flat #FFFFFF ya soft mint #E8F8F4. Koi pattern nahi.
BR-08	`app_icon_monochrome.png` NEW	**From BR-04** 1024x1024 PNG transparent	**Compose**	Android 13+ themed icon: white silhouette, 66% safe zone.
BR-09	`splash_logo.png` REPLACE	**From BR-03** 1152x1152 PNG transparent	**Compose**	Android 12 splash: mark center ke 768px circle ke andar hona chahiye, warna crop hoga. Background color pubspec me #FFFFFF.
BR-10	`ic_notification.png` NEW	**From BR-04** 96x96 PNG (also 72/48/36/24)	**Compose**	Push notification small icon: pure white silhouette on transparent. Koi colour ya gradient nahi (Android usko tint karta hai).

2. App — service & action icons

`khatupay_app/assets/services/`

> Sab ek hi camera angle, ek hi lighting, ek hi palette. Abhi wale icons neon-glossy hain aur loan illustrations se match nahi karte. File name same rakho to code change zero.

ID	File name	Generate → Final	Style	Subject / instruction
SV-01	`mobile_recharge.png` REPLACE	**1:1 (1024)** 512x512 PNG transparent, <60 KB	**A**	A smartphone standing upright with four rising signal bars on its screen and a small saffron-gold coin with a lightning bolt beside it.
SV-02	`dth_recharge.png` REPLACE	**1:1** 512x512 PNG transparent	**A**	A small satellite dish antenna next to a flat TV screen showing a play symbol, with two curved signal waves between them.
SV-03	`credit_card_bill.png` REPLACE	**1:1** 512x512 PNG transparent	**A**	A teal credit card with a chip, overlapping a white bill receipt that has a round green check badge on its corner.
SV-04	`electricity_bill.png` REPLACE	**1:1** 512x512 PNG transparent	**A**	A glowing light bulb with a saffron lightning bolt inside, resting on a white bill sheet with soft grey lines.
SV-05	`fastag_recharge.png` REPLACE	**1:1** 512x512 PNG transparent	**A**	A small rounded car seen from the front three-quarter view passing under a toll gate arch, with a rectangular RFID tag sticker on the windshield and a wireless signal symbol above it.
SV-06	`loan_quick.png` NEW	**1:1** 512x512 PNG transparent	**A**	A stack of saffron-gold rupee coins with a teal upward arrow and a small document with a check mark behind it.
SV-07	`scan_pay.png` NEW	**1:1** 512x512 PNG transparent	**A**	A smartphone scanning a QR code tile, with four teal corner brackets framing the QR pattern.
SV-08	`business_qr.png` NEW	**1:1** 512x512 PNG transparent	**A**	A small shop counter QR standee (acrylic stand) with a generic QR pattern and a tiny shop awning behind it.
SV-09	`rewards_gift.png` NEW	**1:1** 512x512 PNG transparent	**A**	A teal gift box with a saffron ribbon, lid slightly open, two gold coins floating out.
SV-10	`offers_tag.png` NEW	**1:1** 512x512 PNG transparent	**A**	A teal price tag with a percent symbol shape cut into it and a saffron string loop.
SV-11	`support_headset.png` NEW	**1:1** 512x512 PNG transparent	**A**	A teal headset with microphone next to a rounded white chat bubble containing three dots.
SV-12	`virtual_card.png` NEW	**1:1** 512x512 PNG transparent	**A**	A floating teal payment card with a chip and contactless waves, with a small shield badge on its corner.
SV-13	`withdraw_bank.png` NEW	**1:1** 512x512 PNG transparent	**A**	A small bank building with pillars and a saffron coin moving toward it along a curved teal arrow.

3. App — login, OTP, verification

`khatupay_app/assets/auth/`

ID	File name	Generate → Final	Style	Subject / instruction
AU-01	`auth_secure_access.png` REPLACE	**3:2 (1536x1024)** 1600x900 PNG transparent, <150 KB	**A**	A smartphone showing a lock screen with a round fingerprint symbol, a large teal shield with a check mark behind it, and a small saffron key floating beside. Wide composition.
AU-02	`account_verified.png` REPLACE	**1:1** 800x800 PNG transparent, <120 KB	**A**	A user profile card with a round avatar placeholder and a large green verified check badge, small confetti dots in teal and saffron around it.
AU-03	`email_verification.png` REPLACE	**1:1** 800x800 PNG transparent	**A**	An open white envelope with a card sliding out showing four rounded code boxes, and a teal check badge on the corner.
AU-04	`password_recovery.png` REPLACE	**1:1** 800x800 PNG transparent	**A**	A teal padlock with a circular refresh arrow around it and a saffron key in front.
AU-05	`mobile_otp.png` NEW	**1:1** 800x800 PNG transparent	**A**	A smartphone with a chat bubble popping out that shows four rounded code boxes, and small signal waves above the phone.
AU-06	`mpin_setup.png` NEW	**1:1** 800x800 PNG transparent	**A**	A smartphone showing a round numeric keypad with four filled dots above it, a teal shield beside the phone.
AU-07	`biometric_unlock.png` NEW	**1:1** 800x800 PNG transparent	**A**	A large fingerprint pattern in teal inside a rounded square scanner frame, with a small face-scan outline frame beside it.

4. App — loan journey

`khatupay_app/assets/loans/generated/ (loan_lifecycle.png: assets/loans/)`

> Is set ka existing style (soft matte 3D, white base, teal + gold) sabse achha hai. Yahi poore app ka reference style banega. Sirf weight kam karna hai (abhi har file ~1 MB).

ID	File name	Generate → Final	Style	Subject / instruction
LN-01	`loan_apply_illustration.png` KEEP	**1:1** 800x800 PNG transparent, <120 KB	**A**	A smartphone showing a simple loan application form with a three-step progress bar, a stack of gold rupee coins in front, a document sheet behind, a teal upward arrow.
LN-02	`loan_identity_check.png` KEEP	**1:1** 800x800 PNG transparent	**A**	A generic identity card with a blank avatar and grey text lines being scanned by a teal scan frame, a green check badge beside it. No real ID layout, no emblem.
LN-03	`loan_selfie_secure.png` KEEP	**1:1** 800x800 PNG transparent	**A**	A smartphone front camera view with an oval face guide frame and a simple faceless avatar inside it, a teal shield badge on the corner.

LN-04	`loan_bank_verify.png` KEEP	**1:1** 800x800 PNG transparent	**A**	A small bank building with pillars connected by a dotted teal line to a smartphone showing a bank statement with bar lines, a green check badge in the middle.
LN-05	`loan_credit_review.png` KEEP	**1:1** 800x800 PNG transparent	**A**	A semicircular credit score gauge going from saffron to teal with a needle in the good zone, a report sheet with bars behind it. No numbers.
LN-06	`loan_agreement_sign.png` KEEP	**1:1** 800x800 PNG transparent	**A**	A document sheet with grey lines and a signature squiggle at the bottom, a teal pen signing it, a round seal badge with a check mark.
LN-07	`loan_success.png` KEEP	**1:1** 800x800 PNG transparent	**A**	Gold rupee coins flowing into a teal wallet, a large green check badge above, small confetti in teal and saffron.
LN-08	`loan_lifecycle.png` KEEP	**1:1** 800x800 PNG transparent	**A**	Four small rounded platforms connected by a curved teal path: a form, a shield with check, a bank building, and a coin stack, showing a journey from left to right.
LN-09	`loan_under_review.png` NEW	**1:1** 800x800 PNG transparent	**A**	A document sheet under a magnifying glass with a teal rim, a small hourglass beside it with saffron sand.
LN-10	`loan_disbursed.png` NEW	**1:1** 800x800 PNG transparent	**A**	Gold rupee coins travelling along a curved teal arrow from a smartphone into a bank building, a green check badge on the bank.
LN-11	`loan_emi_due.png` NEW	**1:1** 800x800 PNG transparent	**A**	A desk calendar with one date circled in saffron, a bell with a small notification dot, and a gold rupee coin leaning against the calendar.
LN-12	`loan_not_approved.png` NEW	**1:1** 800x800 PNG transparent	**A**	A document sheet with a soft saffron information badge (letter-free circle with a dot and bar), and a circular retry arrow beside it. Calm and respectful, not alarming, no red cross.

5. App — business, profile, notifications

`khatupay_app/assets/business/ , /profile/ , /notifications/`

ID	File name	Generate → Final	Style	Subject / instruction
BZ-01	`business/business_payments.png` REPLACE	**1:1** 800x800 PNG transparent	**A**	A small shop counter with a QR standee, a smartphone held toward it showing a green check, and gold coins dropping into a teal cash tray.
BZ-02	`business/merchant_dashboard.png` REPLACE	**1:1** 800x800 PNG transparent	**A**	A tablet showing a simple sales dashboard with a rising bar chart and a round chart, a small shop awning behind and a coin stack in front.
BZ-03	`business/business_kyc_pending.png` NEW	**1:1** 800x800 PNG transparent	**A**	A shop front with a clipboard checklist in front of it, two items checked in green and one with a saffron clock badge.
BZ-04	`business/settlement_done.png` NEW	**1:1** 800x800 PNG transparent	**A**	A teal cash tray sending gold coins along an arrow to a bank building, with a calendar leaf and a green check badge.

BZ-05	`business/qr_sticker_kit.png` NEW	**1:1** 800x800 PNG transparent	**A**	An open delivery box with a QR standee, two round QR stickers and a small card lying beside it.
BZ-06	`profile/profile_verification.png` REPLACE	**1:1** 800x800 PNG transparent	**A**	A profile card with a round avatar placeholder, three rows each ending in a green check, and a teal shield badge overlapping the corner.
BZ-07	`profile/empty_loan.png` REPLACE	**1:1** 800x800 PNG transparent	**A**	An empty open folder in soft teal with one blank sheet peeking out and a single small gold coin beside it. Calm, lots of empty space.
BZ-08	`profile/merchant_setup.png` REPLACE	**1:1** 800x800 PNG transparent	**A**	A small shop with a striped teal awning, a QR standee on the counter and a plus badge in saffron above the roof.
BZ-09	`profile/security_privacy.png` REPLACE	**1:1** 800x800 PNG transparent	**A**	A large teal shield with a padlock in its centre, a fingerprint tile and a key floating beside it.
BZ-10	`notifications/notification_inbox.png` REPLACE	**1:1** 800x800 PNG transparent	**A**	A teal bell above an open inbox tray holding three rounded message cards, a small saffron dot on the bell.

6. App — empty states & system screens

`khatupay_app/assets/illustrations/`

> Ye flat vector style me rahenge (admin/website ke SVG se same master). SVG master ek jagah banao, app ke liye PNG export karo.

ID	File name	Generate → Final	Style	Subject / instruction
ES-01	`loan-approved.png` KEEP	**3:2** 1280x800 PNG, <60 KB	**B**	A document card with three green check rows, an orange approved pill tag, a dashed arrow leading to a teal bank tile, three coins below.
ES-02	`merchant-qr.png` KEEP	**3:2** 1280x800 PNG	**B**	A QR standee on a shop counter with a phone beside it showing a check mark, soft circles in the background.
ES-03	`secure-wallet.png` KEEP	**3:2** 1280x800 PNG	**B**	A teal wallet with a shield and check on its front, two cards sticking out, a padlock and coins beside it.
ES-04	`empty_activity.png` REPLACE	**1:1** 800x800 PNG transparent	**B**	An empty clipboard with faint placeholder lines and a small clock, soft mint circle behind. Nothing else.
ES-05	`empty_transactions.png` NEW	**1:1** 800x800 PNG transparent	**B**	An empty receipt roll curling from a card, with two faint placeholder rows and a small magnifier.
ES-06	`no_internet.png` NEW	**1:1** 800x800 PNG transparent	**B**	A wifi symbol with the top arc broken off, a small cloud with a saffron dot, and a phone with a blank screen.
ES-07	`error_generic.png` NEW	**1:1** 800x800 PNG transparent	**B**	A phone with a saffron triangular caution badge and a circular retry arrow beside it. Calm, not scary.

ES-08	`update_required.png` NEW	**1:1** 800x800 PNG transparent	**B**	A phone with a downward arrow entering it and a small rocket lifting off from the top corner, teal sparkles.
ES-09	`coming_soon.png` NEW	**1:1** 800x800 PNG transparent	**B**	A gift box with a teal clock on top and construction-style dotted outline tiles around it, saffron ribbon.
ES-10	`kyc_pending.png` NEW	**1:1** 800x800 PNG transparent	**B**	A generic ID card with a blank avatar and a saffron hourglass badge, a faint checklist behind.
ES-11	`session_expired.png` NEW	**1:1** 800x800 PNG transparent	**B**	A padlock with a small clock face overlapping it and a curved arrow pointing back to a login card.

7. App — home & offer banners

`khatupay_app/assets/banners/ (admin Offers upload ke liye bhi yahi size)`

> Final size 1200x450 (8:3) sab me same. Abhi loan_banner 1200x390 hai, isliye carousel me jump hota hai. AI tools 8:3 nahi banate: 3:2 (1536x1024) me generate karo, subject ko beech ki horizontal patti me rakhwao, phir 1200x450 crop karo. Left 45% text ke liye khaali.

ID	File name	Generate → Final	Style	Subject / instruction
BN-01	`welcome_banner.png` KEEP	**3:2 then crop** 1200x450 PNG/JPG, <180 KB	**C**	A young Indian man in a casual shirt sitting in a cafe, smiling at his phone; in the foreground a hand holds a phone showing a clean teal wallet app screen; small glass circles with rupee, shield and bank symbols float around the phone.
BN-02	`loan_banner.png` REPLACE	**3:2 then crop** 1200x450	**C**	A young Indian couple at home looking relieved and happy at a phone screen; in the foreground a phone shows a teal loan approved screen with a green check; gold rupee coins and a document icon float in glass circles.
BN-03	`qr_upi_banner.png` KEEP	**3:2 then crop** 1200x450	**C**	An Indian shopkeeper behind the counter of a small neat grocery shop, smiling, while a customer hand scans a QR standee on the counter with a phone; generic QR pattern only.
BN-04	`kyc_banner.png` KEEP	**3:2 then crop** 1200x450	**C**	An Indian woman in her late twenties holding a phone at face level taking a selfie for verification at a bright desk; glass circles with ID card, shield and check symbols float nearby.
BN-05	`recharge_banner.png` NEW	**3:2 then crop** 1200x450	**C**	A college-age Indian student with earphones on a metro platform looking at a phone; the foreground phone shows a teal recharge screen with signal bars; glass circles with phone, dish and bolt symbols.
BN-06	`bills_banner.png` NEW	**3:2 then crop** 1200x450	**C**	An Indian family living room in the evening with warm lights on; a parent on the sofa pays a bill on a phone, relaxed; glass circles with bulb, card and car-tag symbols float near the phone.

BN-07	`business_banner.png` NEW	**3:2 then crop** 1200x450	**C**	An Indian woman boutique owner arranging her shop with a QR standee on the counter and a phone showing a sales chart in the foreground; warm, proud mood.
BN-08	`security_banner.png` NEW	**3:2 then crop** 1200x450	**D**	A large glassy teal shield with a check mark in the centre-right, a phone with a fingerprint symbol leaning on it, small padlock and key shapes floating.

8. App — operator logos (generate NAHI karna)

`khatupay_app/assets/operators/`

> Airtel, Jio, Vi, BSNL, Tata Play, Dish TV, Sun Direct, Videocon d2h, Airtel DTH — ye registered trademarks hain. AI se bana hua logo galat/nakli hota hai (abhi wale files AI-redrawn lagte hain). Operator ke official brand/press kit ya aapke recharge API provider se official logo lo. Same rule: UPI, BBPS, NPCI, RuPay, Visa, Google Play badge, RBI — sirf official files, official guidelines ke saath.

ID	File name	Generate → Final	Style	Subject / instruction
OP-01	`airtel.png, jio.png, vi.png, bsnl.png` REPLACE	**Official file** 256x256 PNG, logo on white rounded tile (radius 48), 16% padding, <25 KB	**Official**	Official logo ko white tile par center karo. Colour, shape, proportion kuch change nahi.
OP-02	`airtel_dth.png, tata_play.png, dish_tv.png, sun_direct.png, videocon_d2h.png` REPLACE	**Official file** 256x256 PNG, same tile	**Official**	Same treatment. Abhi har file ~800 KB hai, target 25 KB.

9. Website — favicon, SEO, hero, sections

`admin_panel/public/ (favicon, og) + admin_panel/src/assets/web/`

> Abhi favicon aur og:image i.ibb.co se hotlink hain aur admin_panel/public folder hai hi nahi. theme-color #0066FF hai jo brand se match nahi karta (#0F766E hona chahiye).

ID	File name	Generate → Final	Style	Subject / instruction
WB-01	`public/favicon.svg` NEW	**From BR-03** SVG	**Compose**	Wallet-K mark, square, koi text nahi.
WB-02	`public/favicon-32x32.png, favicon-16x16.png` NEW	**From BR-03** 32x32, 16x16 PNG	**Compose**	16px par sirf mint K on navy rounded square (notes hata do, warna dhabba lagega).
WB-03	`public/apple-touch-icon.png` NEW	**From BR-05** 180x180 PNG, no alpha	**Compose**	App icon ka chhota version, white background.
WB-04	`public/android-chrome-192x192.png, android-chrome-512x512.png` NEW	**From BR-05** 192, 512 PNG	**Compose**	PWA icons. 512 ka ek maskable version bhi (mark 60% safe zone me).

WB-05	`public/og-image.png` NEW	**3:2 then crop** 1200x630 PNG/JPG, <300 KB	**D**	Brand gradient background; on the right a phone at a slight tilt showing a clean teal wallet screen with floating 3D coin, shield and QR tile; left half empty for logo and headline. (Baad me white logo BR-02 + ek line text Canva/Figma me lagao.)
WB-06	`web/home-hero.webp` REPLACE	**3:2 (1536x1024)** 1920x1080 WebP, <250 KB	**D-light**	Light airy scene on white-to-soft-mint background: a large phone on a round teal platform showing a home screen with exactly five service tiles (phone, satellite dish, credit card, light bulb, car tag); beside it a QR standee, a checklist receipt and a shield. Right 45% of the image empty soft gradient. Replaces home-services-banner.png (jisme water/gas/wifi icons hain jo ab service me nahi hain).
WB-07	`web/footer-bg.webp` REPLACE	**3:2 then crop** 1920x640 WebP, <120 KB	**B**	Very subtle abstract pattern of soft wave lines and faint dots in dark ink-teal (#08201E to #0F2F2B), low contrast so white text stays readable. No objects.
WB-08	`web/hero-instant-loans.webp` NEW	**1:1 or 4:3** 1200x900 WebP, <150 KB	**A**	A phone showing a loan approved screen with a green check, gold rupee coins stacked in front, a signed document and a bank building on small platforms.
WB-09	`web/hero-digital-payments.webp` NEW	**4:3** 1200x900 WebP	**A**	A phone at the centre with five floating rounded tiles around it: phone with signal, satellite dish, credit card, light bulb, car with tag; thin teal orbit lines connecting them.
WB-10	`web/hero-qr-payments.webp` NEW	**4:3** 1200x900 WebP	**A**	A shop counter with a QR standee, a phone scanning it, a small speaker box, and coins flowing to a bank tile.
WB-11	`web/hero-about.webp` NEW	**3:2** 1200x900 WebP	**C**	A small modern Indian office with four diverse Indian team members in smart casuals discussing around a laptop, bright daylight, teal accents in decor. No screens with readable text.
WB-12	`web/hero-security.webp` NEW	**4:3** 1200x900 WebP	**A**	A large teal shield with a padlock, a phone with a fingerprint, a key, and a document with a seal, arranged on stepped platforms.
WB-13	`web/hero-contact.webp` NEW	**4:3** 1200x900 WebP	**A**	A headset, a chat bubble with three dots, an envelope and a map pin arranged around a phone.
WB-14	`web/hero-help-center.webp` NEW	**4:3** 1200x900 WebP	**A**	A lifebuoy ring in teal and white, a question-mark-free help card with search bar, and stacked FAQ cards with chevrons.
WB-15	`web/hero-features.webp` NEW	**4:3** 1200x900 WebP	**A**	Three phones fanned out, each showing a different simple screen (wallet, QR, checklist), with layered cards floating above.
WB-16	`web/hero-pricing.webp` NEW	**4:3** 1200x900 WebP	**A**	A receipt with clear line rows and a check badge, a price tag, and a transparent glass calculator in teal.

WB-17	`web/hero-careers.webp` NEW	**3:2** 1200x900 WebP	**C**	Two young Indian professionals shaking hands across a desk in a bright office, a laptop and plant on the desk, friendly mood.
WB-18	`illustrations/how-1-apply.svg, how-2-verify.svg, how-3-receive.svg` NEW	**1:1** SVG 640x480	**B**	Three matching step illustrations: (1) phone with a form and a pen, (2) ID card with scan frame and shield, (3) bank tile with coins and check. Same composition grid in all three.
WB-19	`illustrations/payment-success.svg, payment-failed.svg, payment-pending.svg, payment-timeout.svg, refund-success.svg` NEW	**1:1** SVG 480x480	**B**	Five matching status illustrations with a receipt card in the centre and one badge each: green check / soft red cross / saffron clock / grey hourglass / teal return arrow. Identical layout, only badge and accent change.
WB-20	`illustrations/not-found-404.svg` NEW	**4:3** SVG 800x600	**B**	A map with a dotted path ending at a pin with a small question-free blank flag, a compass beside it. Leave room above for the number, which will be added as live text.
WB-21	`web/app-mockup-phone.png` NEW	**Real screenshot** 900x1800 PNG transparent	**Mockup**	AI nahi. App ka asli screenshot ek neutral phone frame me (Figma/Canva mockup). Website par asli product dikhna chahiye.

10. Admin panel

`admin_panel/src/assets/admin/`

> Admin me UI icons ke liye lucide-react already consistent hai, wahan kuch generate nahi karna. Sirf login, empty states aur print/branding assets chahiye. admin_panel/src/assets/ddd.jpeg kahin use nahi ho raha.

ID	File name	Generate → Final	Style	Subject / instruction
AD-01	`login-side.webp` NEW	**2:3 (1024x1536)** 1080x1440 WebP, <180 KB	**D**	Brand gradient background, portrait. A floating glass dashboard card with a bar chart and a round chart, a shield with check, a stack of coins and a QR tile arranged vertically with depth. Bottom 30% calmer for a line of text.
AD-02	`employee-login-side.webp` NEW	**2:3** 1080x1440 WebP	**D**	Same scene family as AD-01 but with a headset, a checklist clipboard, a phone with a call symbol and a route map pin (collections and support team).
AD-03	`empty-no-data.svg` NEW	**4:3** SVG 480x360	**B**	An empty table card with faint placeholder rows and a small folder.
AD-04	`empty-no-results.svg` NEW	**4:3** SVG 480x360	**B**	A magnifier over a blank list card with a small filter funnel.
AD-05	`empty-error.svg` NEW	**4:3** SVG 480x360	**B**	A server tile with a saffron caution badge and a disconnected plug.
AD-06	`empty-no-notifications.svg` NEW	**4:3** SVG 480x360	**B**	A bell with a small z-free sleeping moon and an empty tray.

AD-07	`access-denied.svg` NEW	**4:3** SVG 480x360	**B**	A closed door with a padlock and a shield, calm.
AD-08	`avatar-default.svg` NEW	**1:1** SVG 256x256	**B**	A simple faceless head-and-shoulders silhouette in teal on a soft mint circle.
AD-09	`invoice-watermark.svg` NEW	**From BR-04** SVG, 6% opacity	**Compose**	Mono mark, invoice/receipt/loan agreement PDF ke background me halka watermark.
AD-10	`email-header.png (Cloudinary par host)` NEW	**3:2 then crop** 1200x300 PNG, <80 KB	**D**	Brand gradient strip with soft wave lines and two small floating coins at the far right; left 60% clean for the white logo.
AD-11	`push_loan.png, push_bill_due.png, push_offer.png, push_kyc.png` NEW	**3:2 then crop** 1024x512 JPG, <120 KB	**D**	Push notification big-picture set, brand gradient background, one hero object each in the centre: coin stack with check / calendar with bell / gift box with tag / ID card with shield. Important content inside the central 80%.

11. Marketing — Play Store, social, print

`marketing/ (naya folder repo root par; app bundle me NAHI jayega)`

> Yahan AI sirf background / key visual banayega. Headline, logo, T&C line hamesha Canva/Figma me lagao (font Inter, weight 700/800). AI ka likha text, khaaskar Hindi, galat aata hai.

ID	File name	Generate → Final	Style	Subject / instruction
MK-01	`store/play_feature_graphic.png` NEW	**3:2 then crop** 1024x500 PNG/JPG, no alpha, <1 MB	**D**	Brand gradient background. On the right a phone tilted 12 degrees showing a teal wallet home screen, surrounded by floating 3D coin, shield, QR tile and light bulb. Left 50% clean for logo and one line.
MK-02	`store/play_screenshot_01.png ... _08.png` NEW	**Real screenshots** 1080x1920 PNG (iOS: 1290x2796)	**Mockup**	Asli app screenshot + phone frame + upar 2-line caption, background soft mint ya brand gradient. Captions: 1 Loans made simple, 2 Recharge in seconds, 3 Pay bills on time, 4 Accept payments with Business QR, 5 Track every rupee, 6 Secured with MPIN and biometrics, 7 Paperless KYC and eSign, 8 Support when you need it.
MK-03	`social/ig_post_loan.png` NEW	**1:1** 1080x1080 PNG	**D**	Brand gradient background, a phone with a loan approved check screen at the lower right, gold coins and a signed document floating; upper left 50% empty.
MK-04	`social/ig_post_recharge.png` NEW	**1:1** 1080x1080	**D**	Soft mint background, a large 3D phone with signal bars and a satellite dish beside it, saffron bolt coin; top third empty.
MK-05	`social/ig_post_bills.png` NEW	**1:1** 1080x1080	**D**	Soft mint background, three objects on stepped platforms: light bulb on a bill, credit card with check, car with tag sticker; top third empty.

MK-06	`social/ig_post_business_qr.png` NEW	**1:1** 1080x1080	**C**	An Indian shopkeeper proudly standing behind a counter with a QR standee, warm shop lighting, upper area darker and calm for text.
MK-07	`social/ig_post_security.png` NEW	**1:1** 1080x1080	**D**	Dark ink-teal background with a glowing glass shield and padlock in the centre-lower area, fingerprint tile; top third empty.
MK-08	`social/ig_story_*.png (same 5 themes)` NEW	**2:3 then extend** 1080x1920 PNG	**D**	Same subjects as MK-03 to MK-07 in vertical composition: subject in the middle third, top 250px and bottom 300px kept clean (Instagram / WhatsApp UI wahan aata hai). WhatsApp status ke liye bhi yahi file.
MK-09	`social/fb_cover.png` NEW	**3:2 then crop** 1640x624 PNG	**D**	Wide brand gradient with phone and floating elements on the right third; centre and left clean. Important content inside central 1200px (mobile crop).
MK-10	`social/linkedin_banner.png` NEW	**Crop of MK-09** 1128x191 PNG	**D**	Very wide thin strip: gradient with soft wave lines and three tiny floating icons at the right end only.
MK-11	`social/x_header.png` NEW	**Crop of MK-09** 1500x500 PNG	**D**	Same as MK-09, bottom-left 400x200 area empty (profile photo overlap).
MK-12	`social/youtube_banner.png` NEW	**3:2 then extend** 2560x1440 PNG	**D**	Brand gradient full canvas; all meaningful content inside the central 1546x423 safe area; outside only gradient and soft waves.
MK-13	`social/profile_dp.png` NEW	**From BR-05** 640x640 PNG	**Compose**	App icon hi, circle crop me test karke. WhatsApp Business, Instagram, Facebook, LinkedIn sab par same.
MK-14	`print/qr_standee_a5.pdf` NEW	**Design file** A5 148x210 mm, 300 dpi (1748x2480), 3 mm bleed, CMYK	**Layout**	Top: white logo on teal band. Middle: QR (dynamic, system se). Below: merchant name + official UPI mark. Bottom: support number. Sirf header band ke liye soft wave pattern AI se le sakte ho.
MK-15	`print/qr_sticker.png` NEW	**Design file** 1200x1200 (100 mm round at 300 dpi)	**Layout**	Round sticker: teal ring, QR in centre with mark BR-03 in the middle (QR ka 20% se zyada cover nahi), scan-to-pay line.
MK-16	`print/poster_a4.png` NEW	**2:3** 2480x3508 PNG, 300 dpi	**C**	Portrait lifestyle photo: an Indian shopkeeper and a customer smiling during a QR payment; top 30% clean wall or sky area for headline, bottom 15% plain for contact strip.
MK-17	`print/visiting_card_front.png, _back.png` NEW	**Design file** 1050x600 (3.5x2 in, 300 dpi)	**Layout**	Front: logo on white. Back: teal gradient with mono mark watermark and contact lines. No AI imagery needed.
MK-18	`social/festival_template_bg.png` NEW	**1:1** 1080x1080 PNG	**D**	Soft mint to white background with a ring of small warm glowing lamps and marigold petals at the bottom edge only, centre empty for greeting text and logo. No deities, no religious symbols.

Images aane ke baad — integration checklist

Code me jo chhote fixes chahiye (images dikhne ke liye)

1. `khatupay_app/pubspec.yaml` ke `assets:` me add karo: `assets/auth/`, `assets/operators/`, `assets/loans/generated/`. Abhi ye teeno missing hain.
2. `verify_mobile_page.dart` line 133: path `assets/auth/auth_secure_access.png` karo.
3. `pubspec.yaml` me `flutter_launcher_icons` ko naye icon par point karo aur adaptive icon set karo (`adaptive_icon_foreground`, `adaptive_icon_background`, `adaptive_icon_monochrome`); `flutter_native_splash` me `image: assets/brand/splash_logo.png` + `android_12` block. Phir dono generators run karo.
4. `admin_panel/public/` folder banao, favicon set + `og-image.png` daalo, `index.html` me i.ibb.co wale 3 links local path se replace karo, `theme-color` ko `#0F766E` karo.
5. `Home.jsx` me `home-services-banner.png` ki jagah `web/home-hero.webp`.
6. `app_theme.dart` me `deepTeal` ko `0xFF0F766E` karo taaki app aur admin same ho.
7. Unused hatao: `admin_panel/src/assets/ddd.jpeg`; repo root `assets/banner.jpeg`, `khatu.jpeg` agar kahin use nahi.

Quality check — har image save karne se pehle

- Koi text / number / logo image ke andar nahi
- Sirf palette ke colours; purple/neon nahi
- Rupee hai, dollar nahi
- Subject 10% padding ke andar, kata nahi
- Transparent edge saaf, halo nahi
- Size aur file name table se exact match
- Weight budget ke andar
- 48px par chhota karke dekho: icon pehchana jata hai?
- Dark aur light dono background par test (logo, icons)
- Pichhle set ki 2 images ke saath rakh kar dekho: same family?

Legal / compliance (fintech ke liye zaroori)

- Operator, bank, UPI, BBPS, RuPay, Visa, Google Play ke logos sirf official source se, unki brand guidelines ke hisaab se. AI-redrawn logo use mat karo.
- Loan marketing visuals par "guaranteed approval", "100% approval", "0% interest" jaisi line mat lagao jab tak wo sach aur approved na ho. Lending partner / NBFC ka naam aur zaroori disclosure jahan regulation maange wahan text me lagao.
- RBI ya sarkari emblem kisi image me nahi.
- AI se bane log real customers ya testimonials ke roop me mat dikhao. Testimonial ke liye asli customer ki ijazat wali photo.
- Screenshots (Play Store, website) asli app ke hone chahiye, AI-generated UI nahi — store policy isi par reject karti hai.
- Festival creatives me deity ya dharmik chinh mat rakho; brand naam ki wajah se bhi nahi.

Suggested order (kam time me sabse zyada asar)

Phase	Kya	Kyun pehle
1	BR-01 to BR-10 (logo vector, app icon, splash, favicon WB-01 to WB-04)	Har jagah dikhta hai; baaki sab isi par depend
2	SV-01 to SV-05 service icons + OP official logos + sab existing images compress	Home screen roz dikhti hai; APK ~30 MB halka
3	WB-05, WB-06 (OG + home hero), MK-01, MK-02 (Play Store)	Naye user ka pehla impression
4	BN banners, AU, ES, BZ sets	App ke andar consistency
5	WB page heroes, AD admin set	Website depth, internal polish
6	MK social + print	Campaign ke time
